## Our masterclass

Insider Knowledge Day takes place on 13 March, right in the middle of London Design Week, when the whole city is buzzing with creativity.

During the special four-hour event there will be talks and demonstrations by design experts. At the end of the day you will be rethinking your design process from start to finish. The event is held in association with the KLC school of interior design.

Julia Begbie, interior designer and tutor, will help you create a decorative scheme with confidence, sharing the secrets of successful designer techniques from style influences to mood boards.

Diana McKnight, interior designer and tutor, looks at the crucial role that colour, pattern and texture play in an interior, to get the best out of them.

Then Rebecca Weir, managing director of Light IQ, looks at inspiring ways to illuminate the home and reveals clever tricks of the trade.

While at Design Centre Chelsea Harbour you can also shop and relax over a coffee or lunch, or visit the RIBA bookshop for more ideas.
