## Lightscaping makes or breaks a garden

At last! I found my gem for the outdoor lighting ' Best consultants' section! Well, I was helped by Charlotte Rowe (A-list garden designer in London). The gem is called Light IQ. I researched the lead only to discover just how many also find them top of the class! In fact, I would have saved time by checking who their clients are; they have been working in exteriors for over ten years with the top industry names: Charlotte Rowe, Cameron Landscape, Arne Maynard, Del Buono Gazerwitz , Iain Macdonald and Stephen Woodhams.
